BACHMANN TRAINS

EV THEN CETTRAL

Taking pride of place on our front cover is the iconic New York Central J-3a Hudson. With a sturdy, die-cast metal boiler and numerous separately-applied details, this is sure to be one of the most impressive steam locomotives on any HO scale roster. The attention to realism doesn't stop on the outside. Thanks to the factory-installed TCS WOWSound decoder, the Hudson arrives with all of the sounds and functionality to match its stunning appearance, including directional LED lighting, CD-quality sound with Audio Assist for programming without CVs, a Keep Alive device for uninterrupted performance at all speed steps, and Chuffinity[®] technology, which delivers authentic, load-based chuff intensity.

Moving from the steam era to the very latest in high-speed technology, we start our HO ready-to-run set category with the new Amtrak[®] Acela[®] II. Featuring an increased capacity and higher top speed than its predecessor, the Acela[®] II is unlike anything else running on North American rails. With its radically modern, aerodynamic appearance, our HO scale model will surely turn heads on your layout. The set features two locomotives, a First Class passenger car, a Business Class passenger car, and a Cafe car, along with a broad, 22[®] radius oval of our new Concrete Tie *E-Z Track*[®], and a speed controller to get moving right out of the box. To increase your train to a prototypical 9-car consist, 6 additional separate-sale cars can be purchased individually.

In HO rolling stock, we're introducing the Siemens Venture passenger cars for both Amtrak Midwestsm and VIA Rail Canada[™], complementing our popular Siemens Charger locomotives. A new line of Chemical Tank Cars featuring two road-specific dome styles joins our freight car range, along with a new series of 40' Track-Cleaning Gondolas with reusable dry-cleaning pads, and four highly detailed Transfer Cabooses.

In N scale, we're welcoming Emily and her coaches to our Thomas & Friends[®] line, available individually to add to your existing collection, or together in a complete train set - perfect for newcomers to the hobby. Our N scale locomotive range sees the return of the EMD SD40-2 diesel locomotive with all-new tooling, while new animated stock cars (yes, in N scale) and standard stock cars join our rolling stock range, along with a 52' 6" Drop-End Gondola with posable end-gates. In our N scale *E-Z Track*[®] range, we're introducing a line of attractively painted girder bridges.

In Large Scale, we're celebrating the arrival of our highly anticipated 1:29 scale Dash 9 locomotive, while we're also welcoming a second 1:29 scale locomotive to our modern power selection with the EMD GP40. To complement these additions, new 53' Evans Boxcars are joining the range, along with a series of Bethlehem Steel Hoppers and compatible separate-sale trucks.

Take a trip down E-Z Street[®] from Williams by Bachmann with new classic-era O gauge station wagons including blue and gold examples, a hearse, and an ambulance. Also joining the range is a new E-Z Street[®] starter oval designed to fit within a standard oval of Williams by Bachmann E-Z Track[®].

In our *E-Z Command* DCC range, we're excited to announce the arrival of *E-Z Command* Plus - the latest in digital control technology. *E-Z Command* Plus introduces the ability to access up to 28 functions on a DCC-equipped locomotive and includes new features such as 128-speed step operation for smooth, realistic performance, both single-locomotive and full-track emergency stop, and a visual speed indicator bar.

As usual, we're also introducing a wide range of additional paint schemes and road numbers for some of our most popular locomotives and rolling stock, and there are still more announcements that we haven't mentioned here. Discover it all within these pages, and thank you for choosing Bachmann Trains.

ELECTRIC TRAIN SETS

AMTRAK® ACELA® II TRAIN SET (DCC and SOUND READY)

Item No. 01206 • Suggested price: \$799.00

Launched in 1999, the Amtrak[®] Acela[®] made history as the first high-speed train service in North America, running between Washington D.C., New York City, and Boston at speeds upwards of 150MPH. Now, just over 20 years later, the Acela[®] service continues to push the envelope for speed and modernity in the Northeast with the introduction of a new generation of hi-tech trains from Alstom. Based on the latest in high-speed technology, the new Acela[®] will provide a substantial increase in both the speed and capacity on this popular intercity route. The Bachmann Amtrak[®] Acela[®] II Train Set features two locomotives (one powered, one non-powered), ready-to-run with analog control and speaker-equipped for upgrading to sound and DCC, a First Class passenger car, Cafe Car, and a Business Class passenger car. Also included is an 81[°] x 45[°] oval of snap-fit nickel silver *E-Z Track[®]* with concrete ties, power pack and speed controller, and illustrated instructions.

Locomotive features include:

- · powered sound- and DCC-ready locomotive
- non-powered locomotive with functioning lights
- die-cast chassis
- precision motor
- working directional LED headlights and marker lights
- operating ditch lights and number board lights
- selector switch for choice between rail and pantograph operation

Coach features include:

- · fully furnished interiors
- LED interior lighting
- prototypical details per car
- articulated coupling system

desire to do more for the war effort, naming the series the Four Freedoms. This artwork would help elevate Rockwell to an icon of American culture after being printed in The Saturday Evening Post. In May of 1943, Rockwell joined a combined campaign by the Post and U.S. Department of the Treasury to sell war bonds and stamps through a travelling rail exhibit. Every citizen who bought war bonds through the campaign received printed copies of the Four Freedoms in return. The Freedom Train, adorned in a patriotic red, white, and blue paint scheme, rode the rails from September of 1947 to January of 1949 to 16 U.S. cities highlighting American heritage and the importance of preserving important American documents. 133 items in total were featured on the train, including Rockwell's Four Freedoms and original versions of the United States Constitution and Declaration of Independence. The classic artwork's next stop is is your HO scale layout, where Bachmann's Norman Rockwell Freedom Train embodies the same hopeful message of its namesake. Rnrkwell

Thoroughbred

an E-Z Track® set with E-Z Mate® couplers

Item No. 00691 • Suggested price: \$189.00

Wheels rumble like the pounding of hooves as this iron horse rounds the bend. Hauling freight with the ease and grace of a champion, the *Thoroughbred* delivers fun and adventure to your stable of trains.

This ready-to-run train set includes:

- F7 diesel locomotive with operating headlight
- open quad hopper
- gondola
- wide-vision caboose
- body-mounted E-Z Mate[®] couplers
- 47" x 38" oval of snap-fit E-Z Track[®] including 12 pieces of curved track, 1 piece of straight track, and 1 plug-in terminal rerailer
- power pack and speed controller
- illustrated instruction manual

Durango & Silverton

an E-Z Track® set with E-Z Mate® couplers

Item No. 00710 • Suggested price: \$399.00

Once part of a vast network of Colorado narrow gauge railroads, the Durango & Silverton today offers one of the most spectacular steam-powered excursions in the United States, transporting passengers through the majestic canyons, forests, and pioneer towns of the Rocky Mountains. Our Durango & Silverton set pays tribute to this iconic railroad, allowing you to recreate the excitement of steam-hauled passenger railroading in HO scale.

- DCC-ready 2-8-0 locomotive and tender with operating headlight
- · factory-installed 8-pin socket for DCC decoder installation of your choice
- open excursion car
- old-time combine
- · old-time coach
- 47" x 38" oval of snap-fit E-Z Track[®] including 12 pieces of curved track, 1 piece of straight track, and 1 plug-in terminal rerailer
- · power pack and speed controller

Yard Master an E-Z Track[®] set with E-Z Mate[®] couplers

Item No. 00761 • Suggested price: \$199.00

The power of a steam engine is guaranteed to be what you need to master any rail yard shunting job with ease. An 0-6-0 locomotive with Union Pacific's[®] distinctive greyhound color scheme and slope tender sends a puff of smoke skyward as it prepares to position rolling stock for pickups, much like a game of strategy. Plan your moves, assemble a consist, and send freight on its way with the Yard Master!

This ready-to-run train set includes:

- Baldwin 0-6-0 steam locomptive with operating headlight, smoke, and slope tender
- gondola
- off-set cupola caboose
- body-mounted E-Z Mate[®] couplers
- 36" circle of snap-fit E-Z Track, including 11 pieces curved track and 1 curved plug-in terminal rerailer
- power pack and speed controller
- illustrated instruction manual

Chessie Special

an E-Z Track[®] set with E-Z Mate[®] couplers

Item No. 00750 • Suggested price: \$319.00

Bom in the rich coal fields of western Virginia, the Chesapeake & Ohio® Railroad went on to cross the Blue Ridge and Allegheny Mountains to range over the Ohio Valley and serve 10 states. Our Chessie Special ready-to-run train forges ahead with essential freight required to fuel the growth and prosperity of Chicago, Cincinnati, Toledo, and many other Midwestern cities.

- USRA 0-6-0 locomotive with operating headlight and tender
- stock car
- three-dome tank car
- gondola
- off-set cupola caboose
- body-mounted E-Z Mate[®] couplers
- 47" x 38" oval of snap-fit E-Z Track® including 12 pieces of curved track, 1 piece of straight track, and 1 plug-in terminal rerailer
- power pack and speed controller

NEW YORK CENTRAL 4-6-4 J-3a HUDSON (TCS WOWSOUND* EQUIPPED)

Performs best on 22" radius curves or greater.

Suggested price: \$479.00 each

As the demand for rail travel increased in the 1920s, the need for faster, more powerful locomotives to pull the 20th Century Limited and other express services along the New York Central's Water Level Route become clear. The solution was delivered by the American Locomotive Company in 1927, as the 4-6-4 Hudson entered service alongside its namesake Hudson River. The type quickly became a symbol of both the New York Central and fast, luxury rail travel. Factory-set for maximum realism and equipped with a TCS WOWSound® CD-quality 16-bit 44,100Hz decoder with Audic Assist®, the Hudson arrives with a steam locomotive sound package that features user-definable whistle options, bell, blowdown, cylinder cocks, water fill, coupler close and release, brake application and release, momentum, grade crossing quill, station announcements, and more.

Additional features include:

- DCC sound-equipped for sound, speed, direction, and lighting control
- true CD-quality audio in 16-bit 44,100Hz sound
- Keep-Alive[®] device that keeps your engine running during power interruptions due to dirty track or loss of electrical contact
- voice-guided Audio Assist[®] programming tool for easy set-up of almost all decoder functionality
- dual-mode NMRA-compliant decoder

- load-based chuff intensity with Chuffinity[™] technology
- precision motor
- all-metal chassis
- operating directional headlight and reverse light
- blackened metal side rods
- blackened metal wheels with RP25 contours
- · E-Z Mate® Mark II couplers on the front and rear

K4 4-6-2 PACIFIC STEAM LOCOMOTIVE (TCS WOWSOUND* EQUIPPED)

Performs best on 22" radius curves or greater.

Suggested price: \$579.00 each

The Pennsylvania Railroad's K4 4-6-2 locomotive, originally produced for passenger service, was considered the premier steam engine of the PRR system until the end of steam service in 1957. Quickly recognized for its ruggedness and reliability, the locomotive was one of the few used for both passenger and freight service throughout the PRR system. Known as Pennsylvania's state steam locomotive since 1987, our model is offered with a TCS WOWSound® CD-quality 16-bit 44,100Hz decoder with Audio Assist® for easy programming without CVs, as well as a Keep-Alive® device for uninterrupted operation, even over dirty track. The K4 arrives factory-set for maximum realism with a steam locomotive sound package that includes whistle, bell, blow down, cylinder cocks, water fill, coupler close and release, brake app ication and release, momentum, grade-crossing quill, departing and arriving station announcements, and more.

Additional features include:

- DCC sound-equipped for sound, speed, direction, and lighting control
- true CD-quality audio in 16-bit 44,100Hz sound
- Keep-Alive[®] device that keeps your engine running during power interruptions due to dirty track or loss of electrical contact
- voice-guided Audio Assist programming tool for easy set-up of almost all decoder functionality
- dual-mode, NMRA-compliant decoder
- precision motor

- lcad-based chuff intensity with Chuffinity[™] technology
- operating headlight
- all-metal chassis and die-cast trailing truck
- blackened-metal wheels with RP25 contours
- blackened-metal siderods
- painted engineer and fireman figures
- separately applied parts, including injectors, pump, and piping
- metal cut levers
- E-Z Mate® Mark II couplers, front and rear

2-10-0 DECAPOD (TCS WOWSOUND" EQUIPPED)

Performs best on 22" radius curves or greater.

Suggested price: \$599.00 each

With the advent of the Bolshevik Revolution in 1917, the Baldwin Locomotive Works was forced to stop shipment of over 100 Decapod 2-10-0 engines originally bound for Czarist Russia. These "orphan" locomotives later found homes with American railroad companies and helped relieve a scarcity of motive power after WWI. This locomotive is equipped with a TCS WOWSound" CD-Quality 16-bit 44,100Hz decoder with Audio Assist". The decoder allows easy configuration without programming CVs as well as a Keep-Alive" device for uninterrupted operation, even over dirty track. It also features Chuffinity" technology for amazingly diverse and realistic chuffs and a WOWSound® steam locomotive sound package that includes bell, whistle, blow down, cylinder cocks, water fill, coupler close/release, brake release and application, grade crossing quill, depot sounds, and more.

Additional features include:

- DCC sound-equipped for sound, speed, direction, and lighting control
- true CD quality audio in 16-bit 44,100Hz sound
- Keep-Alive[®] device that keeps your engine running during power interruptions due to dirty track or loss of electrical contact
- voice-guided Audio Assist® programming tool for easy set-up of almost all decoder functionality
- dual-mode NMRA-compliant decoder
- operating headlight
- · completely hidden drivetrain
- cog V-belt flywheel drive
- precision motor

- precision balanced brass flywheel
- metal motor bearings
- separately applied stack, domes, and cab
- separately applied parts including bell, whistle, pop valves, cut levers, handrails, and stanchions
- separate sanding lines
- highly detailed cab interior
- painted crew figures
- siderods blackened per prototype
- die-cast finescale driver spokes
- tender with all-wheel electrical pickup, detailed coal boarcs, and metal handrails
- E-Z Mate® Mark II couplers, front and rear

HO SCALE NARROW GAUGE FLETCHER, JENNINGS & CO. 0-4-2ST TALYLLYN LOCOMOTIVE

Runs on N Scale track; equipped with international-style hook-and-loop couplers

Suggested price: \$179.00 each

Opened in 1866, the 2'3" gauge Talyllyn Railway was the first narrow gauge line in the UK to operate steam-powered locomotives from the start, with predecessors having their origins in the horse-drawn wagon era. Construction of the 0-4-2ST "Talyllyn" locomotive preceded its namesake railway by two years, and the engine has spent its entire working life on the line. Initially designed for hauling slate, and later revenue passenger service, the Talyllyn locomotive today hauls tourists along its 7.25-mile railway, now recognized as one of the UK's premier narrow gauge heritage lines. The Bachmann Talyllyn locomotive comes available in three prototypical paint variations, reflecting the strikingly different schemes worn over the course of its life. Scaled to HO/OO dimensions, the Talyllyn will operate on standard N Scale or HOn30/OO9 narrow gauge track, and features die-cast metal construction with operating metal drivers.

Features include:

- die-cast metal construction
- highly detailed painted body with precision graphics
- international-style hook-and-loop couplers
- blackened machined metal wheels with metal drivers

SIEMENS ACS-64 ELECTRIC LOCOMOTIVE (TCS DCC WOWSOUND® EQUIPPED)

Performs best on 22" radius curves or greater,

Suggested price: \$469.00 each

Built to modernize "America's Railroad"," the Amtrak Cities Sprinters have state-of-the-art features such as regenerative braking that can feed energy back into the power grid. The latest generation of electrics for the Northeast Corridor, the ACS-64 can reach speeds of 125 mph. Bachmann's feature-packed model reflects the innovative technology of the prototype. Our ACS-64 includes a TCS WOWSound" CD-quality 16-bit 44,100Hz decoder with Audio Assist[®] for easy configuration without programming CVs, as well as a Keep-Alive" device for uninterrupted operation, even over dirty track. The WOWSound[®] electric locomotive sound package includes horn, bell, cooling fan/power inverter, bantograph extension and retraction, coupler close and release, brake release and application, crew alert, grade-crossing quill, departing and arriving station announcements, and more.

Features include:

- DCC sound-equipped for sound, speed, direction, and lighting control
- TCS true CD-quality audio in 16-bit 44,100Hz sound
- Keep-Alive® device that keeps your engine running during power interruptions due to dirty track or loss of electrical contact
- voice-guided Audio Assist® programming tool for easy setup of almost all decoder functionality

DIESEL-ELECTRIC LOCOMOTIVES

SIEMENS SC-44 CHARGER (TCS DCC WOWSOUND® EQUIPPED)

Performs best on 22" radius curves or greater.

Suggested price: \$485.00 each

HO SCALE H

OFFICIAL

LICENSEE

Bachmann's DCC sound-equipped SC-44 Charger uses Siemens Mobility's original design documentation and prototype field recordings. This model includes a TCS WOWSound" CD-quality 16-bit 44,100Hz decoder with Audio Assist[®] for easy configuration without programming CVs and a Keep-Alive[®] device for uninterrupted operation, even over dirty track. The WOWSound[®] diesel-electric locomotive sound package includes horn, bell, prime mover, start-up/shutdown compressor, cooling fan, coupler close/release, brake release/application, crew alert, grade-crossing quill, departing and arriving station announcements, and more. Loaded with prototypical features, the Charger brings all the sights and sounds of Siemens' diesel-electric locomotive to your layout.

Features include:

- Siemens-approved design
- DCC sound-equipped for sound, speed, direction, and lighting control
- TCS true CD-quality audio in 16-bit 44,100Hz sound
- Keep-Alive[®] device that keeps your engine running during power interruptions due to dirty track or loss of electrical contact
- voice-guided Audio Assist orogramming tool for easy setup of almost all decoder functionality
- dual-mode NMRA-compliant decoder

- 10 decoder-controlled lighting functions
- directional headlights
- interior corridor work lights
- · roof-mounted white and emergency red strobe lights
- marker lights
- steady/alternate flashing ditch lights
- die-cast frame
- separately applied windshield wipers, grab irons and detail parts

Amtrak, Amtrak Midwest, Amtrak Cascades, Pacific Surfliner and the respective logos are service marks of the National Railroad Passenger Corporation. WSDOT, ACE, and COASTER marks used with permission.

DIESEL-ELECTRIC LOCOMOTIVES

SIEMENS ALC-42 CHARGER (TCS DCC WOWSOUND[®] EQUIPPED) Performs best on 22^e radius curves or greater.

Suggested price: \$485.00 each

Based on the highly successful medium-distance SC-44 Charger, the ALC-42 displays a range of new features for cross-country service on America's most scenic and storied routes, including a unique nose design and cab door configuration. Bachmann's ALC-42 Charger has been developed in collaboration with Siemens Mobility, using original design documentation and prototype field recordings for maximum realism. Features include a TCS WOWSound® CD-quality 16-bit 44,100Hz decoder with Audio Assist® for easy configuration without CVs, and a Keep-Alive® device for uninterrupted operation, even over dirty track. The WOWSound® diesel-electric locomotive sound package includes an authentic horn, bell, prime mover, startup/shutdown, compressor, cooling fan, coupler close/release, brake release/application, crew alert, grade crossing quill, station announcements, and more.

Features include:

- Siemens-approved design
- DCC sound-equipped for sound, speed, direction, and lighting control
- true CD-quality audio in 16-bit 44,100Hz sound
- Keep-Alive® device that keeps your engine running during power interruptions due to dirty track or loss of electrical contact
- voice-guided Audio Assist® programming tool for easy set-up of almost all decoder functionality

- dual-mode NMRA-compliant decoder
- directional headlights and marker lights
- interior corridor work lights
- steady/alternate flashing ditch lights
- die-cast frame with separately applied windshield wipers, grab irons and detail parts

DIESEL-ELECTRIC LOCOMOTIVES

SIEMENS SCV-42 CHARGER (TCS DCC WOWSOUND" EQUIPPED)

Performs best on 22" radius curves or greater.

Suggested price: \$485.00

OWSound

The latest in passenger railroading technology has arrived at VIA Rail Canada[™] with the Siemens SCV-42 Charger. Designed to handle harsh Canadian winters while maintaining efficiency for fast corridor service, the SCV-42 is the new face of passenger transportation between major cities in eastern Canada including Windsor, Toronto, Montreal, and Quebec City. Features include a TCS WOWSound[®] CD-quality 16-bit 44,100Hz decoder with Audio Assist[®] for easy configuration without CVs, and a Keep-Alive[®] device for uninterrupted operation, even over dirty track. The WOWSound[®] diesel-electric locomotive package includes an authentic horn, bell, prime mover, startup/shutdown, compressor, cooling fan, coupler close/release, bake release/application, crew alert, grade crossing quill, station announcements, and more.

Features include:

- Siemens-approved design
- DCC sound-equipped for sound, speed, direction, and lighting control
- TCS true CD-quality audic in 16-bit, 44,100Hz sound
- Keep-Alive® device that keeps your engine running during power interruptions due to dirty track or loss of electrical contact
- voice-guided Audio Assist programming tool for easy setup of almost all decoder functionality
- dual-mode NMRA compliant decoder
- directional headlights and marker lights
- interior corridor work lights
- steady/alternate flashing ditch lights
- die-cast frame with separately applied windshield wipers, grab irons, and detail parts
- · E-Z Mate[®] Mark II couplers

GENERAL ELECTRIC DASH 8-40CW (TCS SOUND VALUE-EQUIPPED)

Suggested price: \$459.00 each

Entering service in 1989, the Dash 8-40CW was the first in General Electric's line of road diesels to feature the North American Safety Cab (otherwise known as the wide-cab design). It would set the standard for the basic appearance of all GE locomotives for the next two decades, becoming an icon of North American freight railroading. Bachmann's Dash 8-40CW features newly added operating ditch lights, a TCS Sound Value DCC package for sound, speed, direction, and lighting control, and comes ready-to-run on both analog and DCC-equipped layouts.

Additional features include:

- DCC Sound Value-equipped for sound, speed, direction, and lighting control
- Keep-Alive® device that keeps your engine running during power interruptions due to dirty track or loss of electrical contact
- dual-mode NMRA-compliant decoder
- operating headlight and citch lights
- all-wheel drive
- blackened metal wheels with RP25 contours
- E-Z Mate® Mark II couplers

DIESEL LOCOMOTIVES

EMD GP35 DIESEL (TCS DCC SOUND VALUE-EQUIPPED) Performs best on 18^a radius curves or greater.

Suggested price: \$369.00 each

This Sound Value locomotive is DCC-equipped for sound, speed, direction, and lighting control. It features a TCS decoder programmed with authentic sounds and is ready-to-run on both analog and DCC layouts. Also including Keep Alive®, your locomotive will continue uninterrupted operation, even over dirty track.

EMD GP7 DIESEL LOCOMOTIVE (DCC READY with 8-PIN PLUG) Performs best on 18" radius curves or greater.

Tenomis best on To Tadius curves of gi

Suggested price: \$225.00 each

Manufactured between 1949 and 1954, the GP7 was EMD's first successful diesel road switcher. 2,729 units were constructed over a five-year period, with EMD barely managing to keep up with demand. The type would set the stage for EMD to become one of the most successful locomotive manufacturers of the latter half of the 20th century, and despite their age, many remained in service well into the 1980s. Now in their 7th decade, a selection of examples continue to find use on short lines and tourist railroads to this day. Our GP7 comes with directional lighting and a factory-installed 8-pin socket for the DCC decoder installation of your choice.

GE 44-TON SWITCHER (SOUNDTRAXX" TSUNAMI2" DCC SOUND EQUIPPED)

Performs best on 18" radius curves or greater.

Suggested price: \$399.00 each

This locomotive is DCC-equipped for sound, speed, direction, and lighting control. It features a *SoundTraxx* " *Tsunami2*" decoder programmed with a choice of 12 prime mover selections, more than 40 horn options, 14 bells, and a wide range of additional effects including true idle, hand brake, sander sounds, and cab chatter.

DIESEL LOCOMOTIVES

EMD BL2 DIESEL LOCOMOTIVE (DCC EQUIPPED)

Suggested price: \$269.00 each

Standing for "Branch Line Locomotive" the BL2 was EMD's first foray into lighter-duty switching power, with production commencing in 1947. Designed for improved visibility for the engineer during operation, the locomotive was one of the earliest disels to feature a wide cab and a narrow long hood, allowing for a clearer view when operating reverse movements. With styling cues taken from the streamliners of its time, the BL2 has remained popular with railfans throughout the years. Originally utilized for both freight and passenger duties on secondary lines, examples can still be found in service today, handling excursions and short-line freight runs. The Bachmann BL2 arrives with *DCC on Board*^a, featuring new and existing tooling, authentic paint schemes, and directional LED headlights.

Features include:

- new and existing tooling
- highly detailed painted bodies with precision graphics
- dual-mode NMRA-compliant DCC decoder
- directional headlights with Rule 17 dimming
- magnetically operated E-Z Mate Mark II couplers
- blackened machined metal wheels with RP25 contours

EMD F UNIT LOCOMOTIVES (DCC READY with NMRA 8-PIN PLUG)

Performs best on 18" radius curves or greater.

Additional features include:

- operating headlight
- can motor
- all-wheel drive
- RP25 wheel contours

- 8-pin socket ready for the DCC decoder installation of your choice
- E-Z Mate® Mark II couplers

F7-A BOY SCOUTS OF AMERICA® Item No. 63712 • Suggested price: \$199.00

FT-A SANTA FE - BLUE & YELLOW Item No. 69603 • Suggested price: \$169.00

FT LOCOMOTIVE (TCS DCC SOUND VALUE-EQUIPPED)

Performs best on 18" radius curves or greater.

Suggested price: \$319.00 each

The FT locomotive, produced by EMD beginning in the late 1930s, is credited by historians as one of the most important locomotives of all time. The first of EMD's widely popular F-series diesel locomotives designed for freight service, it was successful in convincing rail systems across the United States that diesel locomotives were the future of rail travel and worthy of replacing long-used steam locomotives. Bachmann's HO scale locomotive features a TCS Sound Value decoder with a Keep-Alive® device for uninterrupted operation, even over dirty track. Arriving set for maximum realism, the FT's Sound Value diesel locomotive package includes an EMD 567A prime mover sound set with choice of 8 horns and 5 bells, plus dynamic brakes, automatic air compressor and air spitter valve, windshield wiper, brake squeal, cooling fans, coupler clank, grade-crossing quill, and all directional quills.

Additional features include:

- DCC sound-equipped for sound, speed, direction, and lighting control
- Keep-Alive[®] device that keeps your engine running during power interruptions due to dirty track or loss of electrical contact
- dual-mode NMRA-compliant decoder

- function pagination feature for expanded function control with Bachmann's E-Z Command[®] system
- operating headlight
- · can motor
- all-wheel drive
- RP25 wheel contours
- E-Z Mate[®] Mark II couplers

SIEMENS VENTURE PASSENGER CARS with LIGHTED INTERIORS

The Siemens Venture series is the next generation of medium-distance passenger railcars for North America. Constructed by Siemens Mobility in California, the Venture cars currently see use on Amtrak[®] state-supported services in the midwest and California, while VIA Rail Canada[™] has introduced the series on corridor services in eastern Canada. The Bachmann Venture Cars have been developed in collaboration with Siemens, using original design documentation to ensure prototypical accuracy. Features include fully furnished, lighted interiors, authentic road-specific details, and *E-Z Mate[®]* knuckle couplers. Coach, Business, and VIA Rail Canada[®] Cab Car configurations are available in this release.

Features include:

- · all-new tooling
- · highly detailed painted bodies with precision graphics
- fully furnished and lighted interiors
- road-specific exterior configurations

- dual mode DCC-operated horn, bell, and brake sounds, as well as headlight, ditch light, and marker light functionality on the cab car
- magnetically operated E-Z Mate Mark II couplers
- · blackened machined metal wheels with RP25 contours

CHEMICAL TANK CAR

Suggested price: \$49.00 each

In addition to carrying essential liquids such as water, oil, and gasoline, tank cars also provide a safe and efficient means of transportation for hauling industrial chemicals. Due to the potentially volatile and sometimes corrosive nature of certain chemicals, these tank cars were designed to feature tougher construction and a specialized dome to provide greater

protection for both the contents of the cars and those handling them. The Bachmann Chemical Tank Car incorporates new and existing tooling to replicate these cars in HO scale and includes detail differences per prototype, authentic road names, E-Z Mate[®] couplers, and blackened, machined metal wheels.

Features include:

small or large dome style per prototype

380-TON SCHNABEL CAR with RETORT/CYLINDER LOAD (North American style)

32.5" long; performs best on 22" radius curves or greater.

Suggested price: \$349.00 each

The Schnabel car's unique design allows it to carry extremely heavy or oversized loads, such as generators and transformers for power stations, by making the load an element of the car. The two tapered lifting arms that hold the load resemble a bird's beak, which gave the car its name—Schnabel is from the German for "carrying-beak-wagon" (*Tragschnabelwagen*). Schnabel is a funny name for a seriously powerful freight car.

Features include:

- 16 sets of 125-ton roller-bearing trucks
- · prototypically correct 36" metal wheels
- RP25 wheel contours
- 8 span bolsters
- · detailed retort/cylinder load
- molded hydraulic lines and pumps

BRITISH RAILWAYS BRAKE VAN TRACK CLEANING CAR

with international style hook-and-loop couplers

Suggested price: \$67.00 each

Brake Vans are the British equivalent of the North American Caboose. Much like their stateside counterparts, they could frequently be found at the rear of freight trains through much of the 20th Century. As technology advanced, many found a second career in maintenance-of-way operations, helping to keep the rail network moving. The Bachmann British Railways Brake Van can do exactly this for your railroad. The car's exclusive dry cleaning system features a reusable track cleaning pad to keep your rails shining and your operation trouble-free.

Features include:

- detailed body shell
- reusable and replaceable track cleaning pad
- all-metal wheels
- factory-installed international-style hook-and-loop couplers
- runs on all popular brands of HO track

E-Z TRACK® AND ACCESSORIES

NICKEL SILVER E-Z TRACK® AUTO-REVERSING TRACK SYSTEM

Item No. 44547 • Suggested price: \$238.00

Featuring our electronic auto-reversing *E-Z Track*[®], this track set is the perfect solution for point-to-point passenger and freight transit on your layout. With a variable speed controller, you can determine the rate of travel and bring your town or city to lifel Add-on track sections are also available separately (Item Nos. 44548 & 44549).

- 4 pieces of 9" straight auto-reversing E-Z Track®
- 4 pieces of 18" radius curved auto-reversing E-Z Track®
- 2 pieces of 9" straight E-Z Track®
- 2 Hayes bumpers
- power pack and variable speed controller
- illustrated instructions

ELECTRONIC AUTO-REVERSING NICKEL SILVER E-Z TRACK®

Suggested price: \$52.50 each

You can expand your autoreversing train set or track system with Electronic Auto-Reversing Nickel Silver *E-Z Track*® sections. Available in 9" straight and '8" radius curved sections, this electronically equipped track is specifically designed for the open-end track configuration of our auto-reversing track system, allowing you to go virtually anywhere on your layout.

AUTO-REVERSING 9" STRAIGHT (4 per card) Item No. 44548

Note: this track will not operate as reversing track unless it is used in conjunction with train set numbers 00401, 00402, 25016, 25017, 25100, or with our autoreversing track system, Item No. 44547.

AUTO-REVERSING 18" RADIUS CURVED (4 per card) Item No. 44549

FIVE-BAY ROUNDHOUSE with NICKEL SILVER E-Z TRACK®

Item No. 45020 • Suggested price: \$229.00

Designed to add to #46298 DCC-equipped Turntable. See E-Z Command[®] DCC section for more details.

Features include:

- 5 locomotive stalls
- 5 pieces of 9" straight track
- 5 track ends

E-Z TRACK® AND ACCESSORIES

DCC CONTROL BOX with TURNOUT DECODER

Item No. 44949 • Suggested price: \$39.00

• compatible with N, HO, On30, and O scales

ON BOARD

This control box with turnout decoder allows you to upgrade your electrically operated analog turnouts to DCC quickly and easily. To upgrade, simply replace your analog switch box with this decoder-equipped control box. Once connected, you can assign a decoder address and operate the turnout through your DCC system. Compatible with N, HO, On30, and O scales.

HO TRACKSIDE TURNOUT DECODER

Item No. 44950 • Suggested price: \$48.00

This HO scale trackside turnout decoder lets you upgrade your electrically operated analog turnouts to DCC quickly and easily. With a decoder installed inside the trackside structure, this flexible design can be used in two ways; plug-and-play use with Bachmann's *E-Z Track* system is available by snapping off break-away tabs at the bottom of the structure and plugging into the structure the appropriate wires from your track power source and turnout section. Alternatively, you can make the same connections by soldering to easily hide the wires through a hole under your layout. Once connected, you can assign a decoder address and operate the turnout through your DCC system.

DCC-EQUIPPED TURNTABLE

This DCC-equipped motorized turntable features:

- DCC-equipped with dual-mode NMRA-compliant decoder
- track powered from track position number 4 (separate
- power supply not required for DCC operation) • 16 nickel silver track positions
- gear drive
- turntable indexed to each track section for accurate alignment

- painted maintenance building
- prototypical operator's cabin
- designed for use with Bachmann's E-Z Track
- easily adaptable to other popular track systems
- spring-loaded direction switch and wires provided for DC (analog) operation, if desired

WORLD'S GREATEST HOBBY[™] FIRST RAILROAD TRACK PACK

It's never been easier to get started in model railroading! Our World's Greatest Hobby[™] First Railroad Track Pack contains all the track you need to build the 4' x 8' layout (shown below) featured in the included DVD, Building Your First Model Railroad. Hosted by actor and model railroad enthusiast Michael Gross, the easy-to-follow video will quickly get you on track for fun with the World's Greatest Hobby[™]!

45-piece World's Greatest Hobby™ Your First Railroad Track Pack includes:

- World's Greatest Hobby Building Your First Model Railroad DVD, hosted by actor and model railroad enthusiast Michael Gross
- nine 9" straights
- one 9" terminal/rerailer
- one 9" rerailer
- · twenty 18" radius curves
- two 3" straights
- · two remote turnouts left
- two remote turnouts right
- two Hayes bumpers
- four switch wires (green)
- one terminal wire (red)

Norld's

Item No. 44551 • Price to be announced

Get started in the snap-fit *E-Z Track*[®] system with the Nickel Silver *E-Z Track[®] Oval*. Comes with 12 pieces of 18" radius curved track, one piece of straight track, one straight terminal rerailer, and a standard DC speed controller. All you need now is the HO scale train of your choice (sold separately).

E-Z TRACK AND ACCESSORIES

STEEL ALLOY E-Z TRACK® OVER-UNDER FIGURE 8 TRACK PACK

Item No. 44475 • Suggested price: \$112.00

Railroading fun gets bigger and better with our steel alloy E-Z Track[®] Over-Under Figure 8 Track Pack! Create a giant 78" x 36" over-under "Figure 8" with the 14-piece graduated pier set, 20 pieces of 18" radius curved and 4 pieces of 9" straight E-Z Track[®] included in this track pack.

Set contains:

- 19 pieces 18" radius curved track
- 1 piece 18" radius curved terminal rerailer
- 4 pieces 9" straight track
- 14-piece graduated pier set (3.125" vertical clearance under the tallest pier)
- power wire

STEEL ALLOY E-Z TRACK * FIGURE 8 TRACK PACK

Item No. 44487 • Suggested price: \$95.00

Includes all the steel alloy *E-Z Track*[®] you need to create a complete 76" x 39" Figure 8.

Set contains:

- 30 degree crossing track
- 21 pieces of 18" radius curved track
- 18" radius curved terminal rerailer

E-Z TRACK® LAYOUT EXPANDER SETS

With the E-Z Track® Expander Set, you can add to the track included with our train sets or create new configurations of turnouts, branchlines, and double-track mainlines on your existing railroad. Offered in steel alloy (with black roadbed) or nickel silver (with gray roacbed) versions.

STEEL ALLOY Item No. 44494 • Suggested price: \$109.00

12 pieces of snap-fit E-Z Track[®], including 4 pieces of 9" straight, 4 pieces 18" radius curved track, 1 manual turnout-left, 1 manual turnout-right, and 2 bumpers

NICKEL SILVER Item No. 44594 • Suggested price: \$149.00

12 pieces of snap-fit E-Z Track^{*}, including 4 pieces of 9" straight, 4 pieces 18" radius curved track, 1 remote turnout-left, 1 remote turnout-right, and 2 bumpers

E-Z MATE COUPLERS

Magnetically Operated Knuckle Couplers

E-Z Mate[®] couplers make use of precision molding techniques to allow the molding of springs as an integral part of the knuckle coupler; *E-Z Mate*[®] Mark II couplers include an integrated metal coil spring. *E-Z Mate*[®] and *E-Z Mate*[®] Mark II couplers eliminate the problems and expense associated with separate coil springs.

To install E-Z Mate® and E-Z Mate® Mark II couplers, just remove the coupler pocket cover, drop in the coupler, and replace the cover. Operation is simple as well; E-Z Mate® and E-Z Mate® Mark II couplers operate with a standard metal "glad hand" and under-track magnet, and they are completely compatible with all magnetically operated knuckle couplers currently on the market. (Our under-track magnet comes with a trackside brakeman figure to indicate the magnet's position.) Coupling, uncoupling, and other yard operations are all performed with ease.

STEAM LOCOMOTIVES

STREAMLINED K4 4-6-2 PACIFIC (DCC ECONAMI" SOUND VALUE EQUIPPED) Performs best on 11.25" radius curves or greater.

Suggested price: \$479.00 each

Conceived by legendary Art-Deco designer Raymond Loewy, the Streamlined K4 was the Pennsylvania Railroad's answer to the stylish locomotive design trends of the 1940s. Rebuilt from four standard K4 locomotives for use on express passenger services such as the *Jeffersonian* and *South Wind*, the Streamlined K4s would eventually find their way onto all long-distance trains operated by the PRR. Our N Scale Streamlined K4 comes equipped with *Econami*" Sound Value DCC featuring the *Soundtraxx*[®] steam package. Factory set for realism, the steam package offers a choice of 16 whistles, 6 bell types, 4 prototypical chuffs, 5 air pumps, and 5 dynamos, plus cylinder cocks, grade crossing quill, blowdown, brake squeal/ release, coupling/uncoupling, water stop, and "all aboard" announcements with coach door operation effects - all in 16-bit polyphonic sound.

Features include:

- DCC sound-equipped with Econami" Sound Value package
- precision motor
- · operating headlight and reverse light
- directional Rule 17 lighting
- die-cast boiler and chassis
- · blackened metal wheels and side rods
- separately applied details
- E-Z Mate® Mark II couplers

Extra front Streamlined pilot cover included (HO scale model shown)

STEAM LOCOMOTIVES

EM-1 2-8-8-4 STEAM LOCOMOTIVE (DCC ECONAMI" SOUND VALUE-EQUIPPED)

Performs best on 11.25" radius curves or greater.

Suggested price: \$529.00 each

An articulated engine that provided tremendous power at high speeds, the EM-1 was ideal for hauling passengers and heavy loads of coal up and down the Appalachian Mountains. It joins our N scale *Spectrum*[®] line equipped with an *Econami*[®] SoundTraxx[®] steam package. Factory-set for EM-1 realism, the steam package offers a choice of 16 whistles, multiple variations of 6 bell types, 4 prototypical chuffs, 5 airpumps, and 4 dynamos plus cylinder cocks, grade crossing signal, blowdown, brake squeal/release, coupling/uncoupling, and water stop–all in 16-bit polyphonic sound.

Features include:

- DCC sound-equipped with Econami[®] Sound Value package
- dual-mode NMRA-compliant decoder
- die-cast boiler and frame
- twin brass flywheels
- all-wheel pickup in engine and tender

- soft white LED headlight and backup light
- separately applied handrails and stanchions
- detailed backhead
- traction-tire equipped
- · chemically blackened wheels
- E-Z Mate® Mark II couplers

STEAM LOCOMOTIVES

4-6-4 J-3a HUDSON STEAM LOCOMOTIVE (DCC ECONAMI" SOUND VALUE-EQUIPPED)

Performs best on 11.25" radius curves or greater

Suggested price: \$469.00 each

As the 1920s progressed, the need for faster, more powerful locomotives to pull the 20th Century Limited and other famous trains along the New York Central's Water Level Route from New York to Chicago became clear. The answer was delivered by the American Locomotive Company in 1927, as the 4-6-4 Hudson type entered service along its namesake Hudson River. The Hudson became an iconic symbol of both the New York Central and fast, luxury rail travel. Factory-set for maximum realism and equipped with an *Econami*" *SoundTraxx*[®] steam package, the locomotive offers a choice of 16 whistles, multiple variations of 6 bell types, 4 prototypical chuffs, 5 air pumps and 4 dynamos, plus cylinder cocks, grade-crossing signal, blowdown, brake squeal/release, coupling/uncoupling, water stop, and "all-aboard" announcements with coach door operation—all in 16-bit polyphonic sound.

Additional features include:

- DCC sound-equipped with *Econami*[™] Sound Value package
- dual-mode NMRA-compliant decoder
- precision motor
- authentic Boxpok-style drivers
- operating headlight and tender backup light
- · completely hidden drive train
- gear drive
- separate detail parts, including bell, whistle, pop valves, and handrails
- die-cast chassis
- metal driver axle bearings
- E-Z Mate® Mark II couplers, front and rear; extra front dummy coupler in down position included

GG-1 ELECTRIC (DCC SOUND VALUE-EQUIPPED) Performs best on 11.25" radius curves or greater.

Suggested price: \$399.00 each

This DCC sound-equipped model with die-cast frame includes our Sound Value SoundTraxx[®] sound package with prototypical motors with blowers, pantograph extension and retraction, air compressors, short and long horns, and bell-all in 16-bit polyphonic sound.

DIESEL LOCOMOTIVES

SIEMENS SC-44 CHARGER (TCS WOWSOUND® EQUIPPED)

Performs best on 11.25" radius curves or greater.

Suggested price: \$459.00 each

greater. WOWSound (((((

Bachmann's DCC sound-equipped SC-44 Charger is arriving in N scale! Developed in collaboration with Siemens Mobility, our model uses original design documentation and prototype field recordings for maximum realism. The model includes a TCS WOWSound® decoder featuring Audio Assist® for easy configuration without programming CVs, and a Keep-Alive® device for uninterrupted operation, even over dirty track. The WOWSound® diesel-electric locomotive sound package includes an authentic horn, bell, prime mover, start-up/shutdown, compressor, cooling fan, ccupler close/release, brake release/appl cation, crew alert, grade crossing quill, departing and arriving station announcements, and more.

Features include:

- Siemens-approved design
- DCC sound-equipped for sound, speed, direction, and lighting control
- Keep-Ålive® device that keeps your engine running during power interruptions due to dir:y track or loss of electrical contact
- voice-guided Audio Assist[®] programming tool for easy set-up of almost all decoder functionality

DIESEL LOCOMOTIVES.

SIEMENS ALC-42 DIESEL LOCOMOTIVE (TCS WOWSOUND® DCC EQUIPPED)

Performs best on 11.25" radius curves or greater.

Suggested price: \$459.00 each

The future of long-distance passenger railroading is heading to N Scale. Based on the highly successful mediumdistance SC-44 Charger, the ALC-42 displays a range of new features for cross-country service on America's most scenic and storied routes, including a unique nose design and cab door configuration. Bachmann's ALC-42 Charger has been developed in collaboration with Siemens Mobility, using original design documentation and prototype field recordings for maximum realism. Features include a TCS WOWSound® CD-quality 16-bit 44,100Hz decoder with Audio Assist[®] for easy configuration withcut CVs, and a Keep-Alive[®] device for uninterrupted operation, even over dirty track. The WOWSound[®] diesel-electric locomotive package includes an authentic horn, bell, prime mover, startup/shutdown, compressor, cooling fan, coupler close/release, brake release/application, crew alert, grade crossing quill, station announcements, and more.

Features include:

- Siemens-approved design
- DCC sound-equipped for sound, speed, direction, and lighting control
- true CD-quality audio in 16-bit 44,100Hz sound
- Keep-Alive[®] device that keeps your engine running during power interruptions due to dirty track or loss of electrical contact
- voice-guided Audio Assist[®] programming tool for easy set-up of almost all decoder functionality

- dual-mode NMRA-compliant decoder
 directional headlights and marker lights
- interior corridor work lights
- steady/alternate flashing ditch lights
- die-cast frame with separately applied windshield wipers, grab irons and detail parts
- E-Z Mate® Mark II couplers

DIESEL LOCOMOTIVES

EMD SD40-2 (DCC ECONAMI" SOUND VALUE EQUIPPED)

Performs best on 11.25" radius curves or greater.

Suggested price: \$359.00 each

Constructed from 1972 to 1989, the SD40-2 was by far the most successful of EMD's "Dash 2" series of road switchers. More than 4000 were produced, mostly for use within North America, although they have also seen use in Australia, South America, and elsewhere internationally. Their ability to handle both road freight and local switching operations ensures that they remain an essential locomotive for most major freight railroads to this day. The Bachmann SD40-2 returns to our N scale line with all-new tooling, DCC *Econami*[®] Sound Value On Board, and a range of authentic paint schemes for the modern era.

Features include:

- DCC sound-equipped with *Econami*[™] Sound Value package
- dual-mode NMRA-compliant decoder
- directional headlights with Rule 17 dimming
- · precision motor

- die-cast frame
- separately applied detail parts

GP40 DIESEL LOCOMOTIVE (DCC ECONAMI" SOUND VALUE-EQUIPPED)

Performs best on 11.25" radius curves or greater

Lconami

Suggested price: \$299.00 each

The GP40 was considered the top of EMD's four-axle line when first offered in the 1960s. It was visually distinguished from earlier GPs by three radiator fans along its long hood. Bachmann's N scale Sound Value model is *SoundTraxx[®] Econami[®]* equipped. Factory-set for GP40 realism, the diesel package offers a choice of 5 prime movers, 16 airhoms, multiple variations of 7 bell types, 2 air compressors, and 3 couplers plus a function-activated grade-crossing signal—all in 16-bit polyphonic sound. *Econami[®]* includes adjustable auto-notching sensitivity for prototypical operation, adjustable master volume and individual sound effect volume levels, advanced consisting, and more.

Features include:

- DCC sound-equipped with Econami[®] Sound Value package
- dual-mode NMRA-compliant decoder
- directional headlights with Rule 17 dimming
- precision motor
- flywheel
- die-cast frame
- fine-scale handrails
- illuminated number boards
- separately applied detail parts
- E-Z Mate® Mark II couplers, front and rear

DIESEL LOCOMOTIVES

EMD GP38-2 DIESEL LOCOMOTIVE (DCC ECONAMI" SOUND VALUE-EQUIPPED) Performs best on 11.25" radius curves or greater.

Suggested price: \$309.00 each

EMD's diesel-electric road switcher, the GP38-2, began production in 1972 as an upgraded model of the earlier GP38. Looking almost identical to its predecessor thanks to a standard body and cab design, the GP38-2 became widely successful on railroads across the country and can still be found in service today. Equipped with an *Econami* " *SoundTraxx*" sound decoder and factory-set for GP38-2 realism, the diesel package offers a choice of 5 prime movers, 16 airhorns, multiple variations of 7 bell types, 2 air compressors, 3 couplers, plus a function-activated grade-crossing signal—all in 16-bit polyphonic sound. The *Econami* " sound system includes adjustable auto-notching sensitivity for prototypical operation, adjustable master volume, individual sound effect volume levels, advanced consisting, and more.

Additional features include:

- DCC sound-equipped with *Econami*[™] Sound Value package
- dual-mode NMRA-compliant decoder
- directional headlights with Rule 17 dimming
- precision motor
- flywheel
- die-cast frame
- fine-scale handrails
- separately applied detail parts

Norman Rockwell's American Christmas

an E-Z Track[®] set with E-Z Mate[®] couplers Item No. 25023 • Suggested price: \$439.00

A festive tribute to America's beloved artist. Norman Rockwell's American Christmas train displays four classic Rockwell holiday illustrations. From Santa fulfilling a child's wish to a father and son bringing home the tree, each heartwarming scene is charmingly detailed. An instant classic for around the tree, the ready-to-run Norman Rockwell's American Christmas is sure to delight the whole family this year...and for many Christmases to come. This ready-to-run train set includes a 2-6-0 steam locomotive with operating headlight and coal tender, lighted combine, lighted observation car, 56" x 38" oval of snap-fit nickel silver E-Z Track, magnetically operated E-Z Mate couplers on all cars, power pack and speed controller, and illustrated instruction manual.

56" x 38" Oval

Auto-Reversing, Battery-Operated + AA x4 Norman Rockwell's Main Street Christmas Streetcar Set

with electronic auto-reversing nickel silver E-Z Track*

Item No. 25100 • Suggested price: \$285.00

Norman Rockwell's Main Street Christmas boasts a festively decorated streetcar with a classic Rockwell holiday illustration. This point-to-point set with auto-reversing track will merrily transport passengers back and forth through your Christmas Village scene. Snap-fit nickel silver track and battery operation make for a quick set up on a table, shelf, or mantelpiece. With its festive decorations, headlights, and lighted interior, Norman Rockwell's Main Street Christmas is now boarding to wish one and all a very merry Christmas!

Features include:

- streetcar with Norman Rockwell illustration, Norman Rockwell passenger image, headlights, and lighted interior
- battery-operated for easy table, shelf or mantlepiece set-up (4 AA batteries required for operation; batteries not included)
- 4 pieces of 18" radius curved, auto-reversing E-Z Track"
- 6 pieces of 9" straight, auto-reversing E-Z Track
- 2 Hayes bumpers
- illustrated instruction manual

ELECTRIC TRAIN SETS

East Broad Top - Freight

an E-Z Track® set with E-Z Mate® couplers

Item No. 25025 • Suggested price: \$489.00

The East Broad Top Railroad and Coal Company began operation in 1872 to mine and transport coal from the Broad Top Mountain in central Pennsylvania. When the mines closed in 1956, the railroad was purchased by a company which operated a small section of the line for tourist excursions. The EBT railroad held the distinction of the only original narrow-gauge railroad surviving east of the Rocky Mountains for much of its history until the railroad ceased operations in 2011. Steam locomotives will once again head down the tracks in 2023 as the railroad returns to service with passenger excursions. Bachmann is happy to celebrate the history and revival of the East Broad Top with this freight train set. The set arrives complete with a 2-6-0 locomotive with operating headlight and tender with coal load, tank car, two-bay steel hopper, and caboose. Also included is a 56" x 38" oval of snap-fit nickel silver E-Z Track, magnetically operated E-Z Mate" couplers on all cars, power pack and speed controller, and illustrated instruction manual.

DYSonno

food, ammunition, and construction material to entrenched troops and carrying away injured soldiers from the Western Front in World War I. The Baldwin Class 10 Trench 2-6-2T was one of the locomotives that saw service with the U.S. Army in France. When the war ended, the victorious U.S. troops turned over all the railways and equipment to the French, who adapted them for agricultural use. Bachmann's DCC WOWSound®-equipped model is the first ever to feature Chuffinity[™] technology. With a ten-fold increase in the number of chuff sounds over previous WOWSteam offerings, Chuffinity™ creates amazingly diverse and realistic sounds. Coupled with intelligent load and grade sensing, chuffs will vary in character, volume, and intensity in prototypical fashion. Chuffinity™ is just part of this Trench engine-specific WOWSound® steam locomotive sound package that also features depot background and battleground sounds. This DCC sound-equipped Trench engine will put you in the middle of all the action of the Great War!

- factory-installed speaker with wire pigtail to allow easy installation of optional aftermarket sound
- two switches behind the smoke box door allow you to choose whether the headlight/firebox flicker and smoke generator are turned off or controlled by the device in the nonproprietary plug-and-play socket
- easy access to switches in the tender for motor power on/off and choice of track pickup or battery power operation according to NMRA or Large Scale railroading practices.

- · realistic coal or wood load in the tender per prototype
- strap or wood pilot per prototype
- option for either body-mounted or truck-mounted coupler height
- metal frame, drivers, hangers, driver leaf springs, siderods, piston rods, valve guides, guide rods, handrails, and piping
- brass-plated metal whistle
- machined brass pop valves and bell with metal clapper
- separate sanding lines
- cab details
- LED headlight
- load-synchronized LEDs in firebox for realistic fire glow
- complete backhead detail including steam gauge with piping, throttle, sight glass fittings, and operating firebox door
- engineer and fireman figures

DIESEL LOCOMOTIVES

GE Dash 9 Diesel Locomotive

(DCC and Sound Ready)

Performs best on 10' diameter curves or greater.

Suggested price: \$1499.00 each

The Dash 9 locomotive, keeping in line with additional locomotives produced under a "dash" name, was given its memorable moniker by General Electric upon its release in 1993. Simple and reliable, the model proved immensely popular, with over 2,500 in operation in the United States at its peak. Today, there's a good chance any Class I freight train you encounter will be led by a Dash 9. This locomotive enters Bachmann's *Big Haulers*[®] lineup featuring an advanced nonproprietary plug-and-play electronic printed circuit board to accommodate the control system of your choice, including conventional DC power, NMRA/ NEM DCC, and/or RC operation.

Additional features include:

ARGE SCAL

LARGE

SCALE

- advanced nonproprietary plug-and-play electronic printed circuit board to accommodate the control system of your choice, including conventional DC power, NMRA/NEM DCC, and/or RC operation
- 1:29 scale, 45mm gauge
- two three-axle ball-bearing power trucks
- two motors per truck with low amperage draw
- all-wheel pickup and all-wheel drive
- operating diesel smoke unit
- white LED directional headlights, front and rear
- lighted front ditch lights
- lighted front number boards
- interior cab lighting and interior cab details
- lighted porch, walkway and step safety lights

- solid-metal railings and lift rings
- · opening side windows
- engineer figure installed inside cab
- windshield wipers, see-through steps, and MU hose detailing
- brass bell and brass Nathan K5LLA horn
- operating AAR knuckle couplers
- extra weight for better performance
- factory-installed speaker with wire pigtail to allow easy installation of optional aftermarket sound
- power cables on each end to allow for battery operation or RC control from trailing car
- · prototype-specific cab profiles
- · detailed, authentic paint schemes
- length: 32"

DIESEL LOCOMOTIVES

EMD GP40 (1:29 SCALE)

Performs best on 5' diameter curves or greater.

Price to be announced

The GP40 is one of EMD's most successful 4-axle road switchers. In tially entering service in 1971, production lasted through 1986 when, after construction of almost 3000 units, the final GP40-2 was rolled off the production line. Today, the GP40 series continues to remain crucial to the switching and branch line needs of class one railroads, in addition to short lines and industrial operators. The Bachmann Large Scale GP40 arrives in 1:29 scale with realistic detail, a non-proprietary plug-and-play circuit board for the control system of your choice, and four authentic modern-era paint schemes.

Features include:

- advanced non-proprietary plug-and-play circuit board to accommodate the control system of your choice, including conventional DC power, NMRA/NEM DCC, and/or RC operation
- one motor per truck with low amperage draw
- · operating diesel smoke unit
- white LED directional headlights, front and rear
- lighted front number boards
- · interior cab lighting and interior cab details

- solid-metal railings and lift rings
- opening side windows
- windshield wipers, see-through steps, and MU hose detailing
- operating AAR knuckle couplers
- factory-installed speaker with wire pigtail to allow easy installation of optional aftermarket sound

SCENESCAPES* TUFTED GRASS MAT (one 11.75" x 7.5" sheet)

Suggested price: \$32.50 each

Super detail your layout in any scale with a wild grass landscape. These ready-touse Tufted Grass Mats start with a lush covering of 5mm static grass on a flexible foam base. Depending on the mat style, various layers of foliage, turf mounds, leaves, and grass tufts are added for an incredibly lifelike appearance. Use whole for large areas or cut into patches to create random areas of groundcover. Simply apply with white glue or spray adhesive to your base platform or wherever you want grass to grow.

HO SCALE PLASTICVILLE® U.S.A. 75TH ANNIVERSARY COMMEMORATIVE KITS

2022 marked 75 years since Bachmann paved the way in providing injection molded plastic scenery items for model railroaders with *Plasticville*[®] U.S.A. buildings and kits. From stores and homes to farms and railroad structures, the no-stress, easy-to-assemble designs have endured in popularity, and our line continues to incorporate many of the same nostalgic items that your parents or grandparents may have assembled. In celebration of 75 years, we're releasing a limited line of some of our most popular items based on their appearance in original product illustrations, complete with collectible 75th-anniversary packaging.

O SCALE PLASTICVILLE® U.S.A. KITS

O SCALE PLASTICVILLE® U.S.A. 75TH ANNIVERSARY COMMEMORATIVE KITS

2022 marked 75 years since Bachmann paved the way in providing injection molded plastic scenery items for model railroaders with *Plasticville*[®] U.S.A. buildings and kits. From stores and homes to farms and railroad structures, the no-stress, easy-to-assemble designs have endured in popularity, and our line continues to incorporate many of the same nostalgic items that your parents or grandparents may have assembled. In celebration of 75 years, we're releasing a l mited line of some of our most popular items based on their appearance in original product illustrations, complete with collectible 75th-anniversary packaging.

75th ANNIVERSARY CATHEDRAL (product may vary from illustration shown) Item No. 45630 • Suggested price: \$34.00 75th ANNIVERSARY HOBO SHACKS (product may vary from illustration shown) Item No. 45631 • Suggested price: \$34.00

NEW

<text>

PLASTICVILLE® U.S.A. KITS

Since 1947, hobbyists and collectors have made *Plasticville® U.S.A.* products their structures of choice. *Plasticville®* pieces add character and dimension to your O scale layout. Many buildings and accessories have been added to the *Plasticville®* line throughout its history, and many are still produced from their original molds. As a fun challenge to collectors, you can collect hundreds of product, color, and packaging variations that have occurred over the years (you can even join the independent Plasticville Collectors Association at plasticvillesa.org). Whether you're new in town or an established civic leader, Bachmann builds *Plasticville® U.S.A.* for you. City growth is limited only by your imagination!

DYNAMIS® PRO BOX

(Item No. 36505 DYNAMIS® WIRELESS INFRARED DCC SYSTEM required for operation)

Item No. 36508 • Suggested price: \$515.00

Adding the Pro Box to your *Dynamis*[®] DCC system delivers more versatility to your railroad. The *Dynamis*[®] Pro Box allows the use of three additional wireless controllers (limit 4), additional wireless receivers and the use of programming tracks to read and write CV values. All of this will transform your *Dynamis*[®] system into a *Dynamis*[®] "Pro" system.

DYNAMIS® WIRELESS INFRARED RECEIVER

(Item No. 36505 DYNAMIS® WIRELESS INFRARED DCC SYSTEM required for operation)

Item No. 36509 • Suggested price: \$54.00

Additional infrared receiver for use with *Dynamis** Pro Box. Provides extended receiver coverage.

pectrum

E-Z COMMAND® DCC SYSTEM

E-Z COMMAND" PLUS DCC CONTROLLER

Item No. 44933 • Suggested price: \$265.00

Bachmann Trains is pleased to offer the next generation of the *E-Z Command*[®] DCC control system; *E-Z Command*[®] *Plus*. With *E-Z Command*[®], digital control of speed, lighting, sound, and direction of multiple locomotives is at your fingertips, as well as remote control of Bachmann *E-Z Command*[®] DCC-equipped turnouts. *E-Z Command*[®] simplifies the programming process for locomotives with one-button, on-track programming and now features the ability to control up to 29 decoder functions per locomotive. Additional features of the *E-Z Command*[®] *Plus* system include 128-speed steps for smooth operation and plug-in wiring for simple setup, single-locomotive emergency stop in addition to full-track emergency stop, an LED lighted speed indicator, and new LED push-button controls. *E-Z Command*[®] will operate all DCC-equipped Bachmann locomotives as well as NMRA-compliant DCC locomotives from other manufacturers.

Features include:

- digital control of multiple locomotives in N, HO, and On30 Scale (E-Z Command[®] 5 Amp Power Booster, Item No. 44910, required for O and Large Scale operation)
- digitally control speed, direction, lighting, and sound
- on-track programming
- 128 speed-step locomotive control
- LED speed indicator display
- · both individual locomotive and full-track emergency stop buttons
- up to 29 control functions
- Bachmann E-Z Command[®] DCC-equipped turnout control
- wall pack power supply
- plug-in wiring

E-Z COMMAND® 5 AMP POWER BOOSTER

Item No. 44910 • Suggested price: \$489.00

The E-Z Command $^{\circ}$ 5 Amp Power Booster provides extra current to the track for an increased number of DCC locomotives on your HO, N, O, or Large Scale layout. Compatible with any NMRA-compliant DCC system.

E-Z COMMAND® AUTOMATIC REVERSE LOOP MODULE

Item No. 44912 • Suggested price: \$109.00

This E-Z Command[®] accessory eliminates the complicated wiring previously needed to operate analog reverse-loop track layouts.

- module senses train as it moves along the loop, automatically switching polarity to allow reverse loop travel
- DCC use only

E-Z COMMAND® DCC SYSTEM

E-Z COMMAND® DIGITAL COMMAND CONTROL SYSTEM (continued)

HO DCC-EQUIPPED TURNTABLE

Item No. 46298 • Suggested price: \$319.00

This DCC-equipped Motorized Turntable features:

- DCC-equipped with dual-mode NMRA-compliant decoder
- track powered from track position number 4 (separate power supply not required for DCC operation)
- 16 nickel silver track positions
- gear drive
- turntable indexed to each track section for accurate alignment

- painted maintenance building
- · prototypical operator's cabin
- designed for use with Bachmann's E-Z Track[®]
- · easily adaptable to other popular track systems
- spring-loaded direction switch and wires provided for DC (analog) operation if desired

DCC CONTROL BOX with TURNOUT DECODER

Item No. 44949 • Suggested price: \$39.00

compatible with N, HO, Cn30, and O scales

This control box with turnout decoder allows you to upgrade your electrically operated analog turnouts to DCC quickly and easily. To upgrade, simply replace your analog switch box with this decoder-equipped control box. Once connected, you can assign a decoder address and operate the turnout through your DCC system. Compatible with N, HO, On30, and O scales.

HO SCALE TRACKSIDE TURNOUT DECODER

Item No. 44950 • Suggested price: \$48.00

This HO scale trackside turnout decoder lets you upgrade your electrically operated analog turnouts to DCC quickly and easily. With a decoder installed inside the trackside structure, this flexible design can be used in two ways; plug-and-play use with Bachmann's *E-Z Track*[®] system is available by snapping off break-away tabs at the bottom of the structure and plugging into the structure the appropriate wires from your track power source and turnout section. Alternatively, you can make the same connections by soldering to easily hide the wires through a hole under your layout. Once connected, you can assign a decoder address and operate the turnout through your DCC system.

CONTROLLERS AND POWER SUPPLY

POWER PACKS

POWER PACK and SPEED CONTROLLER (appropriate for N, HO, and On30 scale trains; not DCC compatible) (appropriate for Large Scale trains; not DCC compatible) Item No. 44211 • Suggested price: \$102.00

CIIII-TITLET CALLER OF CALLER

LARGE SCALE POWER PACK and SPEED CONTROLLER Item No. 44217 • Suggested price: \$105.00

POWER PACK and SPEED CONTROLLER - BLUE with ACCESSORY TERMINALS

Item No. 44220 • Suggested price: \$102.00

 Appropriate for HO, N, and On30 scale trains; not DCC compatible.

16V DC MULTI-ACCESSORY POWER SUPPLY

Item No. 44219 • Suggested price: \$65.00

Now you can power multiple accessories from one convenient power supply.

- several accessories can be attached to each side of the power supply for up to 1 Amp total load
- typical 16V DC accessory attachments are approximately three per side (six total)
- · for use with all scale accessories

16V DC **Multi-Accessory Power Supply**

E-Z LUBE", SMOKE FLUID, AND TRACK CLEANER

E-Z LUBE® INDIVIDUALLY PACKAGED LUBRICANTS

Suggested price: \$19.00 each

GREASE (0.5 oz.) Item No. 99982

Lubricants for Model Railroading Professionals

For the best care and maintenance of metal-to-metal and other moving parts on motive power, rolling stock, and track, Bachmann has a full line of premium-grade lubricants. Four *E-Z Lube*[®] products are offered:

- light gear oil
- heavy gear oil
- heavy duty grease
- conductive contact lubricant

Each of the lubricants has a specific purpose. We recommend Bachmann's Light Gear Oil (Item No. 99984) for use cn all gears, bearings, valve gears, and side rods. Our Heavy Gear Oil (Item No. 99983) lubricates for extended periods of time and should be used for larger locomotive gears only. For applications requiring heavier viscosity products, such as Large Scale gears, it is best to use heavy-duty Grease (Item No. 99982). And for superior electrical pickup, contact maintenance, and track cleaning, your choice is Conductive Contact Lube (99981).

With proper maintenance, you can extend the life and enjoyment of your railroad equipment for many, many years. We urge you to establish a sensible maintenance schedule and to use our *E-Z Lube*[®] products for professional care.

HEAVY GEAR OIL (1 fl oz.) Item No. 99983

(1 fl oz.) Item No. 99984

2023

Williams by Bachmann welcomes new additions to the *E-Z Street*[®] line for 2023. Four station wagons join the series with blue and gold schemes and two commercial versions; an ambulance and a hearse. Also arriving is a new *E-Z Street*[®] Starter Oval designed to fit within a standard oval of Williams by Bachmann *E-Z Track*[®].

Additional O Gauge arrivals for 2023 include four new 75th Anniversary *Plasticville U.S.A.*® structure kits, finished in colors recreating the look of the kits as they appeared in original 1950s-era promotional artwork. Buildings featured in this collection are the Cathedral, Hobo Shacks, Roadside Stand, and Split-Level House. Scaled to 1:48 for use with O Gauge trains, these collectible structures will complement any Williams by Bachmann train collection. With our locomotives, rolling stock, cars, trucks, and accessories, Williams by Bachmann offers an exciting variety of model railroading products for all O Gauge enthusiasts.

Williams *BACHMANN

Suggested price: \$229.00 each

Bachmann's whimsical "Eggliners" are a great way to celebrate the seasons. Featuring operating headlights, marker lights, and transformer-controlled forward, neutral, and reverse operation, their vibrant colors are sure to liven up your layout.

RINGLING BROS. and BARNUM & BAILEY

While many circuses were able to expand because of the efficiency of rail transportation, it was only the merger of Ringling Brothers and Barnum & Bailey in 1919 that created a colossal train of over 90 cars! For nearly 100 years *The Greatest Show on Earth*" traveled by rail to thrill millions of circus-goers all across the country. Bachmann is delighted to bring you these vintage *Ringling Bros. and Barnum & Bailey*" models that let you experience all the excitement of the *Ringling Bros.*" train coming to town!

Now your model town or city can get moving with the E-Z Street track system and E-Z Street vehicles. The E-Z Street modular system snaps together to create realistic one-lane or two-lane roads and intersections. Some suggested configurations include using four sections of 90 Degree Crossover Track (Item No. 00268) to form a two-lane four-way intersection. The 16" diameter curves (Item No. 00261) nest inside the 21" diameter curves (Item No. 00262) for realistic two-lane roads. When planning your track layout, note that you need to use 2.5" Straight to Curve Track (Item No. 00264) anytime you want to connect straight track (5" Straight, Item No. 00266 or 10" Straight, Item No. 00267) to a curved section.

To add power to your E-Z Street" system, you must connect Power Wires (Item No. 00270) to the underside of a section of 10" Straight Track (Item No. 00267). If you would like to create an urban siding off of your track mainline, use our "To Track" Connector Pins (Item No. 00272) to connect to an O Gauge or O-27 tubular track system.

From open rural highways to busy city downtowns, E-Z Street® offers limitless possibilities for fun!

E-Z STREET® DELIVERY VAN

Navigates 16" diameter curves or greater • Length 4.25" • Height 1.75"

Suggested price: \$99.95 each

If you want to add a fun touch to your E-Z Street® layout, these late 1930s-style vans will really deliver the goods.

Features include:

- forward operation only on O Gauge E-Z Street® track system and straight or curved three-rail track
- may also operate on some three-rail turnouts and crossovers

EMD F59PHI LOCOMOTIVE

Navigates O-31 curves • Length 15.75" • Width 2.5" • Height 3.875"

Suggested price: \$539.95 each

The EMD F59PHI is a diesel-electric locomotive still hard at work on passenger trains in the United States and Canada. It was first built in 1994 by General Motors' Electro-Motive Division (EMD) and later by EMD's successor company, Electro-Motive Diesel. With its sleek streamlined design and distinctive detailing, our F59PHI is the perfect addition to your modern passenger railroad.

Features include:

- True Blast[®] Plus 16-bit polyphonic sound including prime mover, horn, and bell
- · dual vertical motors with flywheels
- · headlights with prototypical directional lighting
- operating ditch lights
- 8-wheel drive with traction tires
- die-cast trucks, fuel tank, pilot, and wheels
- · operating die-cast metal couplers
- illuminated number boards and marker lights
- roof vent detail and lift rings
- etched brass screens on sides
- · separate fan covers with freely rotating fans
- separate metal steps
- rear platform detail
- fully-sprung opening cab doors
- two engineer figures
- separate windshield wipers
- metal chassis

GENERAL MOTORS GP38 SCALE DIESEL

Navigates O-27 curves . Length 14" . Height 4"

Suggested price: \$439.95 each

The 2,000-HP GP38 was introduced in 1966 to satisfy railroads' need for an intermediate-horsepower road switcher. The GP38 and later GP38-2 models were both extremely successful, with a combined total of 3,000 units sold.

Features include:

- 4 wheel power trucks with traction tires
- · powered by dual motors
- flywheel coasting action
- all metal gears
- metal wheels
- electronic 6-amp reverse board with directional lock-out
- True Blast[®] Plus 16-bit polyphonic sound including prime mover, horn, and bell
- durable ABS plastic shell
- · die-cast trucks, truck sides, pilots, and fuel tank
- die-cast operating couplers
- dual headlights
- sturdy stamped metal handrails

AMERICAN LOCOMOTIVE COMPANY POWERED FA-1/DUMMY FB-1 SCALE DIESEL SET

Navigates O-27 curves • AB Length 27.25" • Height 4"

Suggested price: \$599.95 each set

Struggling to compete with GM's dominance, Alco introduced its first diesel locomotive, the FA-1 in 1945. Alco realized that there was a tremendous demand to satisfy from the railroads phasing out steam power. The unit was designed as a dual purpose locomotive suitable for freight and passenger service. Alco produced almost 700 units from 1945 - 1950 for railroads all over the country.

Features include:

- 4 wheel power trucks with traction tires
- dual motors
- flywheel coasting action
- all metal gears
- electronic 6-amp reverse board with directional lock-out
- True Blast[®] Plus 16-bit polyphonic sound including prime mover, horn, and bell
- molded windows
- separately applied windshield wipers
- durable ABS plastic shell
- · die-cast trucks, truck sides, and pilots
- 20 individually installed grabrails
- front headlights
- etched metal grilles covering side vents and roof fan
- die-cast operating front couplers

EL LOCOMOTIVES

GE 70-TON SCALE DIESEL LOCOMOTIVE

Navigates O-27 curves . Length 10.5" . Height 3.5"

TRUE

Suggested price: \$429.95 each

The GE 70-Ton Diesel was promoted as "middleweight power with a heavyweight punch." It was an economical and efficient choice for branchlines and short lines in the late 1940s/early 1950s that wanted a lighter engine than the typical 100- or 120-ton switcher. Featuring *True Blast*" *Plus* and dual motors, each with flywheel, our O Gauge model packs its own punch to handle all your switching duties.

Features include:

- True Blast[®] Plus 16-bit polyphonic sound including prime mover, horn, and bell
- die-cast frame
- die-cast trucks
- dual motors, each with flywheel
- prototypical scale dimensions
- electronic reverse board with directional lock-out
- LED lighting
- engineer and brakeman figures
- flush-mounted windshield with separate wipers

NW-2 SCALE DIESEL

Navigates O-27 curves • Length 12" • Height 4"

Suggested price: \$459.95 each

In 1939, GM's EMD division introduced two locomotives: the NW-2 and its smaller sibling, the SW-1. The NW-2 was equipped with a 1000-HP twelve-cylinder engine. It was GM's most popular switcher of all time, with over 1100 units sold. The last unit was manufactured in December 1949. Many railroads and shortlines have rebuilt these units due to their flexibility and reliability. Williams by Bachmann has equipped this dependable switcher with our exclusive *True Blast® Plus* sound package.

Features include:

- True Blast® Plus 16-bit polyphonic sound including prime mover, horn, and bell
- · 4 wheel trucks with traction tires
- powered by dual motors with flywheel coasting action
- all metal gears and wheels
- electronic 6-amp reverse board with directional lock-out
- durable ABS plastic shell
- · die-cast trucks, truck sides, and frame

FRONT RUNNER INTERMODAL CAR with TRAILER

Navigates O-42 curves • Car length 15"; Car height 4.75" with trailer, 2' high without trailer

Suggested price: \$139.95 each

In the late 1950s, the intermodal car changed the way railways transported freight by piggybacking trailers

on railcars. Our model is based on a lightweight Front Runner Intermodal Car. It was able to carry a fully loaded 40' to 48' trailer due to its single-spine construction. This realistically detailed Front Runner with removable Trailer is ready to deliver product straight from the rails to the road.

Features include:

- · die-cast body with plastic detail parts
- die-cast operating trucks
- removable trailer with operating door
- operating couplers
